

# CSI Pollen Netherlands – Focus on citizen scientist

**Name:** Kees Sparreboom

**Region:** Gelderland, Netherlands

Hi,

I am Kees Sparreboom and I am a beekeeper since 1983. In my backyard I keep Buckfast bees and I enjoy it. As you can see I also run a wild bees hotel.

Being participant of the CSI pollen project I became more aware of the diversity of pollen. In April and May I had a diverse pollen inflow. Now in June it is cold and dry and little pollen is brought in.
