

# CSI Pollen Belgium – Focus on citizen scientist

**Name:** Anton Van Derbeken

**Region:** West-Vlaanderen, Belgium

May I introduce myself briefly:

- "Bee" related training: beekeeper, biology teacher, naturalist, naturalist in agriculture
- Beekeeper with "black bee"
- Teacher beekeeping.

Interest in CSI project comes from the finding of loss of biodiversity around me.

With C.S.I. Pollen, I hope to contribute to a better understanding of the presence or absence of diversity in plants and the importance for bees.
